Staff Report

May 28, 2020 Board Meeting

In lieu of an Executive Director's report, for the month of May 2020 the SFCJPA staff is providing the following summary of key items being advanced for each active project:

Bay-101 Project

- Interpretive signage Draft concepts for the interpretive signs to be installed on the new boardwalk that spans the widened channel at Friendship Bridge have been developed. Installation is anticipated in fall of this year.
- The Completion Report for our DWR Prop 84 grant was approved by DWR on May 15, 2020. On May 18 we submitted a request to release the remaining funds of \$408,235.

Bridge Replacement and Channel Widening

• In April the Board authorized the Executive Director to enter into a consultant agreement with Environmental Sciences Associates (ESA) to prepare a mitigation and monitoring plan, restoration landscape plans, and restoration features of the civil design for project features upstream of Highway 101. At the Board's request, staff negotiated an adjustment to the budget such that \$1,200.00 was removed from the not-to-exceed amount. Initial site reconnaissance occurred with SFCJPA staff and ESA on 5/19 and 5/20.

100-year Creek Flood Protection

When funding is available, staff plans to re-release the Request for Proposals for an
environmental consultant to prepare a project-level EIR for features that would supplement our
bridge replacement and channel widening efforts to provide 100-year creek flood protection
upstream of Highway 101. These supplemental features include the offline detention basins
that were analyzed at a program level in the EIR for the Upstream of Highway 101 project.

SAFER Bay Project

 Staff has made presentations to and received feedback from the Bay Restoration Regulatory Integration Team (BRRIT) and San Francisco Bay Joint Venture (SFBJV) Conservation Delivery Committee. These two bodies are anticipated to be critical partners for securing construction permits and future project funding.
